To recreate sound in its truest form, this is what MartinLogan is all about.

Truth in Sound

Truth in Sound is the guiding philosophy of MartinLogan. Our mission is to use this unique and astonishing technology to render the most complex musical passages as faithfully to the original source as possible. If breathtaking, lifelike audio accuracy is important to you, you owe it to yourself to hear MartinLogan. This passion to provide the accuracy is now carried over into the range of custom installation speakers.

STEALTH SERIES

Stealth Series is the pinnacle of discreet high-performance audio. Each speaker utilizes our larger, low distortion Folded Motion™ XT tweeter, along with black-aluminum, high-excursion bass and mid-range drivers, an advanced topology crossover network with polypropylene and low-DF electrolytic capacitors, and custom wound inductors.

- Advanced Load Monitoring
- Exemplary Circuit Design
- 122 Db Signal-to-noise Ratio

All in One Wireless Ceiling Speakers
Power It. Sync It. Play It.

Lithe Audio was established in 2008 by two real tech geeks, Wesley Siu and Amit Ravat. The idea for Lithe Audio came from combining the pair's proven success in developing smart tech solutions for the home with their love of music and entertainment.

The result is a host of exciting products, spear-headed by the unique all-in-one Bluetooth speaker. The simplicity and beauty of these integrated speakers are resonating with people around the world.

Lithe Audio speakers are perfect for both home and commercial properties, and ideally suited for custom AV installations.

All in one Wireless Ceiling Speakers

The retrofit-able Wireless Ceiling Speaker is designed to enable high quality audio streaming from any smartphone device. These ceiling speakers combine amplifiers, receivers and audio in a single, compact and easy to install unit without the need for speaker cables in the walls.

- Precision colour mapping

Home Cinema Projectors that deliver spectacular 4K HDR images

Sony's latest high-performance TRUE NATIVE 4K resolution projectors deliver a truly immersive viewing experience. These projectors are designed to help cinema fans experience spectacular, true-to-life images. Each model delivers high-contrast, detail-packed images thanks to Sony's cutting-edge native SXRD panel. This is combined with Reality Creation, an impressive resolution processing technology that uses a unique Sony algorithm to perfectly map pixels for consistently crisp images.

A projector for every setting

There's a Sony ES projector for every type of room, from a media or living room to a super high-end dedicated home theatre.

Make the home cinema experience bigger and better than ever

Sony 4K projectors are compatible with IMAX Enhanced content, making them ready to deliver the bigger, more breathtaking IMAX visuals you love in compatible content. Take advantage of the size of your projector screen with movies that become even more immersive with IMAX Enhanced.
